4.06. Life on Land

- (a) Learn and explain to the pack the name of the sea surrounding Malta (the Mediterranean Sea) and why it is important for people and nature.
- (b) Explain the differences between three local habitats, such as coastal areas, woodlands, and valleys.
- (c) Talk about the food chain and the web of life, and explain why they are important for biodiversity.
- (d) Present information about four land animals found in Malta, describing their characteristics and where they live.
- (e) Take part in an activity that helps the environment, such as a clean-up, tree planting, or a similar conservation effort.
