## 1.01. Pet Care

- (a) Own and care for a pet. Learn about its origins, including its breed (if applicable) and the country it comes from.
- (b) Know the correct food to provide and describe its feeding habits.
- (c) Explain the signs that indicate your pet is unwell and when it should be taken to the vet. Discuss the importance of vaccinations, regular deworming, and veterinary check-ups for your pet's health. Explain why microchipping is important.
- (d) Demonstrate your knowledge of proper pet care, including cleaning its living space, the exercise it requires, its ideal environment, and its interactions with other animals (friends and potential threats).
- (e) Introduce your pet to your Pack, either through photos or by bringing it to a Pack meeting.
