5.03. Explorer

- (a) Learn and explain the key symbols used on a 1:25,000 scale Ordnance Survey map. Identify your home and your Scouts HQ on the map.
- (b) Describe what you would expect to see along a 5km stretch of road set by your Leader, using the map.
- (c) Walk the same 5km route using the map and take photos of the features you predicted.
- (d) Create a model of a hill to demonstrate how contour lines represent elevation on a map.
- (e) Show that you know how to orientate a map using a compass.
- (f) Describe one way to determine north during the day and one way at night without using a compass.
